Spreads Bull Spread (Debit spread) <i>(Must be done in margin account)</i> Bear Spread (credit spread) European style calendar spreads are not permitted	100% of debit and minimum equity of \$2000 Lesser of uncovered requirement as above, or difference in strike price	Same as initial
Naked index options Puts Calls	The greater of 25% of the underlying index, less any out of the money, plus the premium or 15% of the underlying strike, plus the premium The greater of 25% of the underlying index, less any out of the money, plus the premium or 15% of the underlying index, plus the premium	Same as initial

Margin Requirements (For approved securities)

- A signed margin and/or option agreement must be on file prior to first trade.
- All Margin Accounts require initial equity of at least \$2000.
- Requirements apply to diversified accounts only. Concentrated positions are subject to higher requirements, usually 50%. A concentrated position is defined as any one position equal to or greater than 60% of total market value.
- Certain issues may be subject to higher requirements due to market conditions such as illiquidity and volatility.
- Naked call accounts require \$25000 equity over the above requirement
- Naked put accounts require \$10000 equity over and above requirement, not to exceed 100% of assignment costs.
- Requirements are subject to change without notice.
- House calls are issued only for calls of 1000 or greater unless the account is below NYSE requirements.
